

YOUR HEALTH IS OUR PRIORITY

Our club is taking extensive measures to provide a safe and clean environment in response to the COVID 19 pandemic and in accordance with government guidance. These enhanced protocols increase the cleaning and sanitizing of all equipment and high-touch areas that affect our employees and members.

- **We are using EPA approved products that kill the COVID-19 virus when sanitizing equipment, door handles, handrails, locker rooms, and bathrooms.**
- **We have upgraded all of the HVAC units with a Fresh-Aire Ultra Violet air purification system. This new feature will kill all airborne contaminants throughout the facility, including any bacteria and/or virus'.**
- **We have installed additional sanitary wipe stations throughout the club and additional paper towel dispensers in restrooms at our handwashing counters.**
- **Please practice safe habits in accordance with the CDC guidelines. If you are feeling ill, please stay home or see your doctor.**
- **Social distancing is important. Please maintain 6 feet from others whenever possible. Keep all in-person interactions brief.**
- **Please wash your hands for at least 20 seconds.**
- **When applying hand sanitizer, be sure to cover all surfaces of your hands until they feel dry.**
